

# Video Game Accessibility Resources

## GAMES ARE FOR EVERYONE!

### AudioGames.net

Lists games that are accessible to people with visual impairments.

## **Blind Gamers**

Shares nearly forty games for people with visual disabilities, developed by a retired Australian computer programmer who's been creating accessible games since 2004.

## **Disabled Gamers**

Offers help with controls, mechanics, or just general discussion for gamers with disabilities.

#### **GMA** Games

Designs and sells Windows-based computer games for people with visual disabilities. Offers some games for free.

Help Kidz Learn Lists games for people with mobility and learning disabilities, including games specifically for use with the EyeGaze adaptive technology.

#### Special Effect - Eyemine

EyeMine is a free eye-control optimised software that enables Minecraft to be played without a keyboard or a mouse.

## Can I Play That?

CIPT has grown from a hobby site to a destination for players and developers alike that provides all forms of accessibility information on video games and the industry.

5 Games for blind and visually impaired players 5 Games for deaf and hard of hearing players
